## STEM Workshop @ 2015 Conference

### SPARKING INTEREST IN STEM IN OUT-OF-SCHOOL TIME

Having trouble getting kids excited about STEM? Or looking for new ways to spice up your STEM programming? On Saturday, October 24, AzCASE invites you to join us for ***Sparking Interest in STEM***, a workshop presented by Sandra Frerichs and Desirae TePoel of [Click2SciencePD](#). This hands-on workshop will demonstrate strategies for sparking interest in STEM, give you the tools to foster the development of important problem-solving and critical thinking skills, and will explore elephant toothpaste (you'll have to join us to find out what that means!). *Sparking Interest in STEM* is part of the STEM workshop track at the [2015 School's Out, Make It Count, Arizona Statewide Out-of-School Time Conference](#).

## The Edible Schoolyard

### FEATURED ACTIVITY: HERBS DE PROVENCE

[The Edible Schoolyard](#) website connects educators around the world to build and share edible learning activities. One of our favorites is [Herbs de Provence](#): youth identify a variety of herbs and spices as well as taste and harvest their own herbs. The activity culminates in youth working with ratios to create their own customized Herbs de Provence blend. The Edible Schoolyard

engages youth in STEM concepts through hands-on activities that are relevant to the world around them and fun for all involved.

## Building Tech Skills Through Recycling

### LET AZSTRUT HELP YOU DEVELOP A TECH PROJECT

**Arizona Students Recycling Used Technology** (AzStRUT) is a local nonprofit organization dedicated to refurbishing, recycling, and creating educational experiences with used technology. Interested in engaging youth in a hands-on technology project? You collect the used technology, and AzStRUT will help you create a customized educational experience. From deconstruction, refurbishment, re-use and recycling, AzStRUT can work with your program to craft the perfect project for the youth you serve. **Interested in working with AzStRUT to create a tech project?
