America Still Needs Afterschool

"Afterschool programs use engaging, hands-on and personalized learning to build much-needed employability skills. They create opportunity — not just for kids who get to explore topics that interest them, try new things, and gain important teamwork and communication skills — but also for parents who are able to spend time working, secure in the knowledge that their children are safe, supervised and engaged in learning after the school day has ended."

Arizona Gives Day is Tomorrow

Did you know that 60% of a kids time is spent OUTSIDE a classroom? Despite that, there are thousands of youth in Arizona on wait lists to get access to an after school and/or summer program.

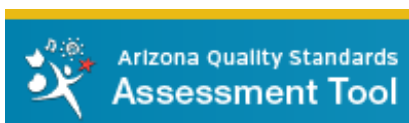

It is the mission of Arizona Center for Afterschool Excellence (AzCASE) to support the growth and development of high-quality after school and summer programming for AZ youth. The work AzCASE does is vital to support kids AND working families, support the academic and social development and prepare them for life outside a classroom. Help support the work we do!
