Catch up with the Afterschool Alliance by watching the recording of their virtual media and field briefing on their new nationwide data on demand for afterschool programs and parent
views on afterschool opportunities. The report "America After 3 PM: Demand Grows, Opportunity Shrinks," includes responses from more than 30,000 U.S. families and builds on household surveys conducted in 2004, 2009, and 2014. It offers a pre-pandemic snapshot of how children and youth spend their afternoons and includes a separate survey of parents conducted this fall.
