What do YOU think?

For many years now AzCASE has offered both an annual conference and spring workshops designed to provide quality professional development for people who work in the OST field. **We want to make sure that as we grow we are still responsive to the needs of the community.**

Please take and share our survey to help us develop future PD. The responses are confidential; they will be collected by a third party and combined and the results will be shared at our annual conference as well as published statewide.

Here are some suggestions to help add as many voices as possible to the survey:

- Set aside 15 minutes at a staff meeting or at orientation for everyone to participate-- the survey is mobile friendly!
- Select employees at multiple levels and ask them to be the voice of your organization.
- Share the link via your staff or organization communication channels.

However you can, please take the survey and share it on. Be a champion for professionalizing the field! Thank you!
