Recruiting Arizona Out-of-School Time STEM Educators for Unique Opportunity!

Would you like to contribute YOUR expertise to online professional development for out-of-school time STEM educators like yourself? AzCASE is proud to partner with the professional development team from the Center for Science Teaching & Learning (CSTL) at Northern Arizona University in an exciting new initiative. CSTL is seeking enthusiastic and dedicated educators interested in contributing to the growing field of out-of-school time STEM education. As a participant you will:

- Explore and develop educator support materials for a planetary science and engineering curriculum for grades 6-8.
- Work with us to create relevant and useable educator support materials for this curriculum, providing valuable feedback before, during and after the working session.
- Grow as an out-of-school time educator through engagement with other diverse educators and new curriculum!
- Receive a $400 stipend for full participation.

To receive the $400 stipend, you must agree to:

- Review curriculum materials and complete feedback forms prior to March 23, 2018
- Attend the full session on April 23, 2018, 9 AM- 3PM in Phoenix
- Agree to review or create products as follow up

They are accepting applications through March 2. Only 15 seats available!
