## Plan Your Hour of Code Event in December!

The Hour of Code takes place each year during Computer Science Education Week which, this year, falls on December 4-10, 2017. The Hour of Code began as a one-hour introduction to computer science, designed to demystify "code", to show that anybody can learn the basics, and to broaden participation in the field of computer science. Code.org has made it easy to organize your own Hour of Code event with online resources, event ideas, and more!

## **Preparing Youth By Expanding** Access to K-12 Computer Science Afterschool

Last month, leaders from throughout the country attended the CSforAll Consortium 2017 Summit to discuss access to rigorous, inclusive, and sustainable computer science education for all US students. The Afterschool STEM Hub joined in with a new Position Statement on Computer Science that's well worth a read!
